1. Europeana Overview

Europeana.eu currently features content from 35 countries, in 30 languages. Several providers and projects have offered new content to Europeana in the last month: e.g. HOPE - Heritage of the People's Europe, thinkMOTION, LinkedHeritage, OpenUp!, EFG - The European Film Gateway, CARARE, Digitising Contemporary Art, MIMO.

Europeana is working on improving the richness and the quality of the metadata quality in the Europeana portal by asking providers to review the presence, quality and consistency of metadata fields, like the description, title, date (created or issued), coverage (spatial or temporal). Europeana focuses as well on increasing the amount of thumbnails displayed on the portal, and the quality and persistency of the links pointing to the digital objects to reduce broken links. In addition Europeana is reviewing the rights statements of all collections, including those submitted throughout the current ingestion process for quality and completeness.
